Comment. Except for the garage in Berlin-Koepenick, the garages mentioned are scheduled to be constructed at well-known KVP military posts. It is noteworthy that KVP garages will also be built at Ohrdruf, probably at the troop training grounds. Already last year this troop training ground was jointly used by KVP and Soviet units. The intensification of KVP field training scheduled for 1954 will necessitate an increased utilization of Soviet troop training grounds by the KVP. The KVP troop training grounds existing in Jaegerbrueck and Weisswasser are not believed to provide sufficient facilities for this type of training.
